The undersigned says on February 25, 2017 The Indiana State Police (ISP) and the Federal Bureau of Investigations (FBI) executed a search warrant at [REDACTED]. While working ISP case [REDACTED], the FBI sent information to the ISP Cyber Crimes unit that an adult male was soliciting female juveniles utilizing the social media platforms, Snapchat and Instagram. The adult male was using the username anthony\_shots. Subpoenas were sent to Instagram and Snapchat for the anthony\_shots account information. The Instagram and Snapchat returns provided Comcast IP addresses. A subpoena was sent to Comcast for the IP addresses associated with the anthony\_shots account and they returned to [REDACTED] in Peru, Indiana. The Instagram subpoena advised the Anthony Shots account was registered on 07/20/2016 and the Snapchat return advised the account was registered on 07/14/2016.

On February 25, 2017 at approximately 12:30 PM EST, the search warrant was executed on the residence by ISP, FBI and the Peru Police Department. [REDACTED] and his son, Kegan Anthony Kline were located in the residence.

At approximately 12:35 PM EST, [REDACTED] was interviewed by ISP Sergeant Kunstek and FBI Special Agent Willmann. [REDACTED] was read his rights and agreed to speak with investigators. [REDACTED] confirmed they had Comcast as their internet provider and it was a secured network. [REDACTED] told investigators that Kegan did use Instagram and Snapchat.

At approximately 1:25 PM EST, Kegan Kline was interviewed by ISP Sergeant Kunstek and FBI Special Agent Willmann. Kegan was read his rights and agreed to speak with investigators. During Kegan's interview, he initially denied creating fake social media accounts and talking to underage girls. Later in the interview, he admitted to creating the anthony\_shots profile and speaking to underage girls. Kegan told investigators he created the accounts approximately 6 months ago. Kegan stated he talks to girls he knows personally and girls he doesn't know personally. Kegan stated he meets girls on Instagram. He said he knows the age of the girls he communicates with because he talks to them. Kegan stated if a girl told him she was 16 or under he wouldn't care and would still talk to them. Kegan told investigators he

finds girls on Instagram and then tells them to talk to him on Snapchat. Kegan admitted to speaking to approximately 15 girls that were underage and advised he probably received pictures from every one of them. He advised he saved their pictures to his gallery. During his interview, Kegan stated he was fucked and he should've left. Kegan advised he packed another bag and took it to Las Vegas. [REDACTED] and Kegan returned from Las Vegas on February 25, 2017. He stated he was going to leave when his dad was asleep. Kegan told investigators the main phone he uses is the white iPhone 5c.

After Kegan's interview, he was polygraphed at the Peru State Police Post by Sergeant Matthew Collins. Kegan and Sergeant Collins spoke about this incident and case, [REDACTED]. Kegan again admitted to creating the fake anthony\_shots profiles and speaking to underage girls. Kegan told Sergeant Collins the girls ranged from 15 to 17 years old and he knew their ages because they told them how old they were. Kegan stated he received approximately 100 sexual pictures from underage girls. Kegan described sexual pictures as bare breast, vaginas, butts and girls in bras and panties. Kegan also advised he received approximately 20 videos of underage girls masturbating. Kegan stated he would masturbate to the pictures and videos they sent him. He also communicated this to the girls who were sending the pictures and videos. Kegan's polygraph questions were based on case, [REDACTED]. Kegan's polygraph was concluded at approximately 7:30 PM and he was transported back to his residence.

The undersigned has watched the interview and polygraph recordings of Kegan Kline.

Multiple electronic devices were seized during the warrant including; an Apple iPhone 4, Apple iPhone 3, Samsung Galaxy S5, Samsung Galaxy S4, Nextbook Tablet and an Apple iPod Touch.
