

**Tickets for 2024 Total Solar Eclipse On Sale Now at [IMS.com](https://www.ims.com), Ticket Office**  
*Racing Capital of the World Is Destination for Unrivaled Experience within Path of Totality*

**INDIANAPOLIS (Sunday, Oct. 8, 2023)** – Tickets to enjoy the once-in-a-lifetime phenomenon of the 2024 Total Solar Eclipse on April 8, 2024, at Indianapolis Motor Speedway are on sale at [IMS.com](https://www.ims.com) and at the IMS Ticket Office.

General admission tickets are \$15 per person and include gate admission April 8, infield parking and a pair of limited-edition solar eclipse glasses – “The Greatest Spectacles.” Kids 18 and under are admitted free with a paying adult and will receive a pair of limited-edition solar eclipse glasses.

Three-day camping packages (April 6-9) in Lot 2 are available starting at \$125. April 6 marks 50 days until the 108th Indianapolis 500 presented by Gainbridge, so fans can enjoy a countdown weekend at IMS while gearing up for a full day of racing and space fun.

“The Total Solar Eclipse is a unique opportunity to explore the connections between motorsports and space, and there’s no better place to celebrate both than the Indianapolis Motor Speedway,” IMS President J. Douglas Boles said. “As we count down to the Month of May, gathering at IMS to witness this rare moment over the Yard of Bricks will provide another opportunity to create lifelong memories at the Speedway.”

Six months from today, a total solar eclipse, known as the "Great North American Eclipse," will trace a narrow path of totality across 13 U.S. states. When the total solar eclipse crosses North America, Indianapolis will be located in the center of the Path of Totality. For three minutes and 46 seconds, Indianapolis will experience darkness as the moon passes between the sun and Earth, completely blocking the face of the sun.

This is the first time in 819 years that a Total Solar Eclipse has been visible in Indianapolis, and it will be another 129 years before it occurs again.

IMS will host one of several NASA broadcast sites across the nation. NASA experts will be on hand to answer questions about the scientific phenomenon of a total solar eclipse. Educational STEM opportunities, exclusive merchandise and programming centered around racing and space discovery will be available throughout the day.

Visit [IMS.com](https://www.ims.com) to purchase tickets for the 2024 Total Solar Eclipse and for more information on event details.
