July 8, 2024,

MCG technology update

During the early morning hours of July 1, 2024, Monroe County government experienced an intrusion into its network from an outside source termed "Blacksuit." The perpetrator has been confirmed.

While we are actively looking into this matter with the help of third-party specialists, we do not yet know the extent of data that may have been affected. IF you are concerned, it is always best practice to lock your credit down.

While we are still looking into this, the evidence suggests that no employee sensitive information has been misused in any way.

As this is still early in the investigation, we yet do not know if vendor or public users personally identifiable information (PII) has been subject to unauthorized access. If PII has been subject to unauthorized access, we will provide the necessary notice required to protect those affected.

We have shared all the information we can now. This is an active investigation at this time, so we are limited in our communications. We have been told, answers may be weeks out, but we will share relevant updates as they become available.

We appreciate your patience as we work urgently to resolve this matter.

Monroe County Government is fully operational at this time.
